FM 1-06 is the Armys keystone manual for Financial Management (FM). Its purpose is to provide the authoritative doctrine on how FM supports the full spectrum of operations as a component of the theater sustainment war fighting function. It expands on existing doctrine introduced in FM 4-0, Sustainment, to incorporate a broader approach to supporting the fighting force. The intent of this manual is to describe how FM complements combat power, supports strategic and operational reach, and enables endurance. This manual provides the foundation of FM doctrine, organizations, training, materiel, leadership and education, personnel, and facilities development to support the modular Army, and establishes how FM operations are integrated and synchronized into the overall operations process plan, prepare, execute and assess. The term Financial Management refers to both finance operations (FO) and resource management (RM) responsibilities. The fundamental purpose of the Army is to provide joint force commanders with sustained and decisive land forces necessary to fight and win the nations wars. Focused FM support that is responsive, flexible, and precise is crucial to the Armys ability to rapidly project power with the most capable forces at the decisive time and place. FM must provide support during the simultaneous execution of the elements of full spectrum operations: offense, defense, stability, or civil support. The manual recognizes that FM is provided by active and reserve components, Department of Defense and Department of the Army civilians, joint, and multinational assets. This manual also recognizes that FM, like other sustainment functions, is a commanders combat multiplier, and must be involved throughout the entire military decision making process. It is managed, executed, and assessed through all stages to enable commanders to execute and sustain full...
