THE HIDDEN REALITY: PARALLEL UNIVERSES AND THE DEEP LAWS OF THE COSMOS

[DOWNLOAD](#)

Vintage. Paperback. Book Condition: New. Paperback. 464 pages. Dimensions: 7.9in. x 5.2in. x 1.0in. The bestselling author of *The Elegant Universe* and *The Fabric of the Cosmos* tackles perhaps the most mind-bending question in modern physics and cosmology: Is our universe the only universe? There was a time when universe meant all there is. Everything. Yet, a number of theories are converging on the possibility that our universe may be but one among many parallel universes populating a vast multiverse. Here, Brian Greene, one of our foremost physicists and science writers, takes us on a breathtaking journey to a multiverse comprising an endless series of big bangs, a multiverse with duplicates of every one of us, a multiverse populated by vast sheets of spacetime, a multiverse in which all we consider real are holographic illusions, and even a multiverse made purely of math--and reveals the reality hidden within each. Using his trademark wit and precision, Greene presents a thrilling survey of cutting-edge physics and confronts the inevitable question: How can fundamental science progress if great swaths of reality lie beyond our reach? *The Hidden Reality* is a remarkable adventure through a world more vast and strange than anything we could have imagined. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
