Product Description Higher education in sport has become a hot issue in Europe over the last ten years - not only is it now seen by many educators as an integral part of higher education, but sport itself has become extremely important in the European political arena. "Higher Education in Sport in Europe" examines both aspects of sport in education against the backdrop of the European Education Reform Process, with a focus on the Thematic Network Project: Aligning a European Higher Education Structure in Sport Science - a four year project that developed guidelines for future curricula in Sport Coaching, Health and Fitness, Sport Management, and Physical Education in order to ensure pan-European academic quality in sports education. About the Author Karen Petry is Deputy Head of the Institute of European Sport Development and Leisure Studies at the German Sport University.

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.
